Daniel was an excellent TF. He was extremely helpful and always willing to meet outside of section. He was also extremely knowledgeable on the subject.

Daniel is really wonderful. He does a great job reinforcing the course material and teaching how to effectively/efficiently use STATA. His feedback is helpful and he is consistently accessible and friendly. I've had a lot of TFs during my time at Harvard, and Daniel has been one of the best.

Cannot give him a more positive review. Was amazing and everything you look for in a TF. A real treat to have.

Daniel is possibly one of the best TFs I have ever had. He consistently went out of his way to help everyone in the class by being readily available on email, to setting up extra times to talk with us about projects and problem sets outside of office hours. Dan worked incredibly hard on the behalf of Professor Snyder and the students in his class and I couldn't have been more satisfied with him.

Daniel is probably one of the best TFs I've had. So engaging, and understanding. Really helps us learn the material through his teaching style. I wish there were more Daniels around the Gov department.

Daniel is the best TF I have ever had. His sections are always extremely interesting, and he develops a great relationship with all of his students. He does a great job providing feedback on assignments, as well as helping with future assignments. He's a truly great teacher.
